Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Pass both written and practical skills examinations administered by the College, State, and any appropriate certification accreditation entity (e.g., IFSAC, FST, CPAT).
- Possess the information, tools, and knowledge to keep up to date with current tactical practices, national standards, and future advancements in the field of firefighting.
- Understand how they fit into the para-military organization of a fire department and their value to the organization.
- Understand how to follow as a new firefighter, grow into leadership positions, and successfully fit into the diverse culture of the fire service.
- Successfully approach the diversity of the work that a firefighter faces including using problem-solving skills to identify numerous ways to complete tasks with resources available, reflect on outcomes and suggest improvement plans, and take on challenging tasks to create effective systems and programs.
- Be equipped with the ethical reasoning skills and moral behavior associated with firefighting.
